Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Part III DETAILED ACTION

Specification

The amendment filed November 28, 2001 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure for reasons of record. Page 17 of the specification is noted but not seen to support the language in question. The specification indicates that a hypertensive subject as a person afflicted with or susceptible to the effects of hypertension if not treated to prevent or control the condition. This is merely a definition of a hypertensive subject. This is not a statement that the instant compounds actually possess preventive properties. In fact the only data presented represents that the instant compounds may possess 70% inhibition of renin (page 66 of the specification) which does not appear to prevent hypertension but rather helps control the condition.

Applicant is required to cancel the new matter in the reply to this Office Action.

Double Patenting

The rejections for type-type double patenting were overcome by the terminal disclaimer filed with applicants' amendment. It is noted that the Patent Number of USP 6,342,624 had the last two numbers transposed in the rejection of record. However, the correct patent number was used by applicants in the terminal disclaimer.

Claim Rejections - 35 USC § 112

Claims 37-47 are rejected under 35 U.S.C. § 112, first paragraph. The claimed embodiment of "prevention" lacks description and enablement in the specification as

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
